

10-21 Assist Tier

Protect officer privacy while capturing every conversation

10-21 Assist builds on the trusted 10-21 Police Phone app, including virtual phone numbers and secure call recording, into a powerful AI-powered workflow tool for citizen engagement, evidence collection and streamlined reporting.

Protect Personal Privacy

Stay accessible to the community without exposing your personal number or storing evidentiary communications on your device. 10-21 Assist keeps calls, recordings and transcripts securely managed in the application – not on your phone.

Eliminate Manual Note Taking

Stop wasting time transcribing notes and call logs. AI-powered intelligence automatically handles the record-keeping, so you can spend more time in the field and less time at a keyboard.

Never Miss a Callback

Don't let critical information get lost in a missed call. By allowing citizens to reach you through a secure inbound channel, you build stronger community trust and ensure important leads are captured instantly.

Streamline Evidence Collection

Move from conversation to case file seamlessly. With automatic integration into CommandCentral DEMS, your call recordings and transcripts are ready for court before you even get back to the station.

KEY FEATURES

Expand beyond secure calling and call recording with advanced 10-21 Assist capabilities designed to streamline field communications and evidence management.

Translation Assist

Remove language barriers instantly. Real-time audio translation helps you communicate clearly with everyone in your community.

Secure Inbound Calling

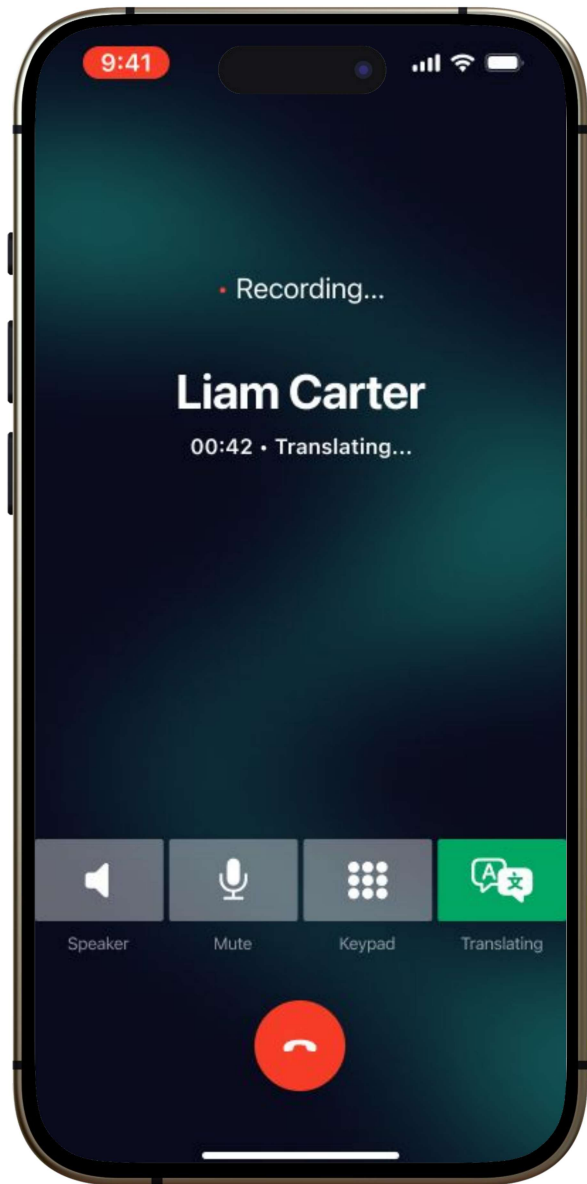

Citizens can call you back via the 10-21 app. You stay in control by toggling your availability on or off.

Automated Transcription

Save time on reports. Every call is automatically converted into a time-stamped text record for easy review.

Evidence Integration

No more manual uploads. Call recordings and transcripts flow directly into CommandCentral DEMS, where tagging helps organize and correlate evidence for faster retrieval and review.

Translation Assist

Annual subscription: \$156 /officer
