

# USE CASE PATIENT ELOPEMENT

Safe Hospitals

## Operational View

### DETECT

#### MISSING PATIENT REPORTED

A hospital staff member notifies security of a missing, at-risk patient.

### ANALYZE

#### APPEARANCE SEARCH ON CAMERAS

Security uses a description of the patient to automatically search all cameras to track movement and determine their location.

### COMMUNICATE

#### TEAMS COORDINATED

Closest security officer or hospital staff to the patient is determined and dispatched to retrieve the patient with image and location information.

### RESPOND

#### INCIDENT RECORDED

Hospital security wearing body-worn cameras render the patient safe in a timely manner and an incident report is securely logged.
