

# CALLYO INVESTIGATIVE SOLUTIONS

## CAPTURE CLEAR DIGITAL EVIDENCE FROM ANY MOBILE PHONE

Conducting thorough investigations safely and efficiently is nearly impossible if your agency relies on antiquated equipment. Callyo offers powerful phone-based tools to facilitate undercover voice, text and multimedia communications and evidence capture. The software supports a diverse spectrum of investigative units with life-saving technology available at your fingertips – you only need your phone.

### CONDUCT SAFER INVESTIGATIONS

Remote technology is a lifesaver in high-risk situations. Callyo makes it possible to safely collect digital evidence through phone calls, text messages and livestreaming video from a safe distance.

### COLLECT THE EVIDENCE YOU NEED

Callyo helps investigators collect quality evidence that is conveniently stored in a government cloud platform. Case prep is easier and the integrity of cases is higher from an evidentiary standpoint.

### PROTECT YOUR IDENTITY

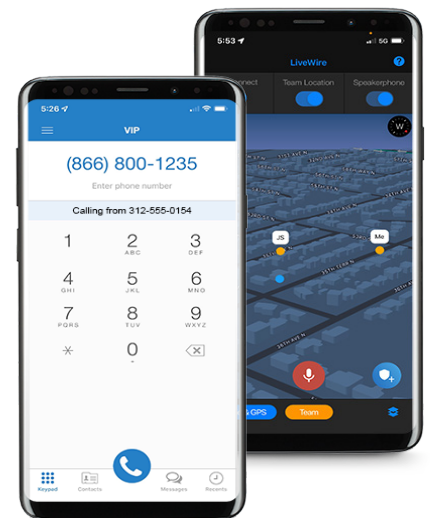

Callyo allows you to keep your identity private and your personal phone just that, personal. All information is securely stored in the cloud, protecting your phone from becoming discoverable.

### NO SPECIAL COSTLY EQUIPMENT

There's no need for burner phones or expensive equipment. The apps powering Callyo work on your existing smartphone. You can also leverage Callyo from any basic, mobile phone.

### DESIGNED FOR ALL UNITS

Whether your focus is Narcotics, Internet Crimes Against Children (ICAC), Hostage Negotiation, Homicide, or anything in between, Callyo can assist every unit and investigative task force.

“We can safely conduct a large-scale operation and never be bogged down by clerical and organizational requirements. Callyo’s apps are invaluable for any investigation team.”

– Master Sergeant Greg Primm, Missouri State Highway Patrol

### Virtual Investigation Phones™ (VIP)

Create a VIP recorded phone line in any area code and safely capture communications and log them as evidence. VIP's features facilitate and manage overt or covert communications between investigators, informants and suspects, and include:

- Speaker Isolation
- Number Intelligence
- Deconfliction
- Live Call Monitors (up to 20)
- Three-Way Controlled Call

### Mobile Body Bug

Turn any smartphone into an undercover cellular body wire with unlimited range and listeners in less than a minute. Your cover team can listen to the conversation, view the GPS location of the transmitting phone and of the rest of the team.

- Clear, Real-time Audio
- Any Phone - Any Carrier
- Live GPS Location
- Team Push-to-Talk
- Automatic Reconnect

### Video Livestreaming

Livestream low-latency overt or covert video to your team at a moment's notice. Record interactions for training and accurate reporting.

### Simple Evidence Management

Collect and manage all evidence in a single portal. Easily extract evidence and send it to the prosecutor or upload into your case management system.

### Unlimited Usage & Cloud Storage

Every Callyo plan comes with unlimited usage (for intended use cases), secure cloud-based evidence storage and multi-factor authentication.

### 24/7/365 Technical Support

Our expert technicians are available 24/7, 365 days a year, providing unparalleled training and customer support.

### Plans for Every Budget

Callyo offers three simple pricing plans to meet any size agency's needs. The plan you choose will determine the level of capabilities available to your investigators.
