

M500-AS-A-SERVICE

TRANSPARENCY SHOULDN'T COME AT A HIGH PRICE

Get your cameras and get going. Our simple pay-as-you-go program helps you get everything you need for your in-car video system program with no upfront capital investment — from a robust camera system to advanced digital evidence management tools.

As the requirement for law enforcement video systems continues to grow, the obstacles to acquisition remain the same. Raising funding and securing grants is difficult and time-consuming. Data storage and system maintenance costs are hard to predict. And video technology continues to mature, making a big investment potentially risky.

Motorola Solutions is helping you overcome these obstacles by providing an in-car video system, video management software and required services through our M500-as-a-Service offering.

With no up-front capital investment required, you can deploy a new camera system and start using it immediately under a simple 5-year pay-as-you-go program. Everything you need is provided, including your camera system, required accessories, management software, video storage, service and support. And if you already have content in an in-car video management system, we can work with you to migrate your video material to the new platform.

NO NEED TO RAISE FUNDS

Get what you need with no upfront investment. This pay-as-you-go structure turns a capital investment into a manageable operational expense.

BUDGET PREDICTABILITY

Stay on budget with a low payment, fixed for 5 years, that includes your camera system, software, support and video storage.

ASSURED PERFORMANCE

Maintain efficiency and reliability with a no-fault warranty, advance hardware replacement and 24/7 phone support.

TECHNOLOGY REFRESH

Stay current with the latest technology by receiving routine, non-intrusive updates for your camera system and management software.
